

Views.View

```
classDiagram
    class Views_View["Views.View"]
    class Views_GUI_MainWindow["Views.GUI.MainWindow"]
    class Views_GUI_StartView["Views.GUI.StartView"]
    Views_View <|-- Views_GUI_MainWindow
    Views_View <|-- Views_GUI_StartView
```

The diagram illustrates a class hierarchy. At the top is the base class *Views.View*. Below it are two subclasses: *Views.GUI.MainWindow* on the left and *Views.GUI.StartView* on the right. A horizontal line connects the two subclasses, with a vertical arrow pointing upwards from the center of this line to the *Views.View* class, indicating that both subclasses inherit from the base class.

Views.GUI.MainWindow
