

Views.View

```
classDiagram
    class ViewsView["Views.View"]
    class ViewsGUIMainWindow["Views.GUI.MainWindow"]
    class ViewsGUIStartView["Views.GUI.StartView"]
    ViewsGUIMainWindow --|> ViewsView
    ViewsGUIStartView --|> ViewsView
```

The diagram illustrates a class hierarchy. At the top is the base class *Views.View*. Below it are two subclasses: *Views.GUI.MainWindow* on the left and *Views.GUI.StartView* on the right. Both subclasses inherit from the base class, as indicated by the upward-pointing arrows.

Views.GUI.MainWindow

Views.GUI.StartView
